TEACHING EXPERIENCE:

2021-Present | UNIVERSITY OF WISCONSIN - STOUT
School of Art & Design | Department of Design
Assistant Professor

2019-2021 | UNIVERSITY OF WISCONSIN - STOUT
School of Art & Design | Department of Design
Lecturer

Courses taught:

DES 214 - Interior Design Practice Materials, & Finishes - Introductory study of interior design professional practice, contemporary interior design issues, materials and finishes used within the built environment.

DES 303 - Interior Design Studio I - Experiential study of the fundamental principles and elements of interior design and their application to a range of residential design projects. Projects emphasize residential space planning based on functional requirements, application of various elements of design, and design communication methods.

DES 304 - Interior Design Studio II - Experiential study of the principles and elements of interior design as applied to a range of projects and end-user populations. Studio design projects emphasize project development, end-user needs, codes, varied building typologies, and design communication methods.

DES 415 - Interior Design Studio III - Advanced experiential study of the principles and elements of interior design and their application to a range of commercial design projects. Studio design projects emphasize conceptual development, space planning, building code and accessibility compliance.
